JACK JUMPER®

Cutout Bypass Tool

Reduces Outage Complaints

Maintains continuous power while changing fuses, lowering operational costs over time.

Improves Crew Efficiency

The Jack Jumper® can be installed and removed in seconds by one person with a shotgun stick.

Minimizes Downtime

Keep crews efficient and customers online. Top-to-bottom bypass design securely jumps the cutout for seamless fuse removal.

Safer Fuse Handling

Keeps linemen safe by bypassing energized cutouts without unnecessary risk. 9 models are available to accommodate common cutout styles.

Continuous Power. Faster Fuse Changes.
